PRODUCT OVERVIEW

Primarily, the Khalipha Mfundi workbooks were produced to fulfill the need for material for isiZulu as a first additional language (FAL) learners. We now also have simplified workbooks for second additional language (SAL) learners.

The FAL workbooks range from Grade 1 to 12.
The SAL workbooks range from Grade 1 to 7.

They are based on the curriculum and vocabulary proposed by the Zulu User Group and incorporates the Curriculum and Assessment Policy Statement (CAPS). CAPS represents a policy statement for learning and teaching in South African schools. It replaces the National Curriculum Statement (NCS) of 2002, 2003 and 2005. "Thinking and Reasoning" and "Language Structure" which were part of the old NCS (National Curriculum Statement) are now integrated into all 4 language skills (listening, speaking, reading and writing).

Our workbooks are A4 in size, have a full colour cover and are black and white inside.

There is a "Term Guide" to help pace the curriculum through the year.

The book is designed to allow students to complete exercises inside the workbook, so no additional workbook is required.

For teachers ONLY, there are answer books for the FAL series.
